Hello!

Hello spring, hello May! It is now day 3,867,909 of life in quarantine, well at least it feels that way to us. The last couple of weeks have been crazy! Markets are falling for corn, oil, etc., major storms have created some havoc in some southern states, and people thinks it’s safe to drink disinfectant (FYI, it is NOT okay to consume disinfectant). We hope by this time in June, we will start to see things get back to normal. We hope everyone remains safe and healthy!

COVID-19 Update

We know some of the COVID-19 orders have been lifted and many people can go back to work. Here at Cooper Farms, we still want to protect the health of our team members, so we are keeping our COVID-19 guidelines in place for now. We will let you know when things change. Please remain outside the scale offices if weighing grain or ingredients. Also, no one is allowed in the receiving offices, the Cooper Farms employee will come to you, if there are questions (following the 6ft distance rule). If you have questions or concerns, please let us know.

Thanks!
